

**BLUFFVIEW MONTESSORI SCHOOL
POLICY 516
STUDENT MEDICATION AND TELEHEALTH**

I. PURPOSE

The purpose of this policy is to set forth the provisions regarding medicine and telehealth for students while at school.

II. GENERAL STATEMENT OF POLICY

Bluffview Montessori School acknowledges that some students may require prescribed drugs or medication or telehealth during the school day. Bluffview Montessori School's nurse or trained staff will administer prescribed medications, except any form of medical cannabis, in accordance with law and Bluffview Montessori School procedures.

III. DRUG AND MEDICATION REQUIREMENTS

A. Administration of Drugs and Medicine

1. The administration of prescription medication or drugs at school requires a completed "Request Form for Administration of Medication/Procedure". This form includes a Physician order and requires signatures from the physician and the student's parent or guardian.
2. Drugs and medicine subject to Minnesota Statutes, 121A.22 must be administered, to the extent possible, according to school board procedures that must be developed in consultation with:
 - a. a licensed nurse, in a school that employs a licensed nurse under Minnesota Statutes, section 148.171;
 - b. a licensed school nurse, in a school that employs a licensed school nurse licensed under Minnesota Rules, part 8710.6100;
 - c. a public or private health-related organization, in a school that contracts with a public or private health or health-related organization, according to Minnesota Statutes, 121A.21; or
 - d. the appropriate party, in a school that has an arrangement

approved by the Commissioner of the Minnesota Department of Education, according to Minnesota Statutes, 121A.21.

3. Exclusions

The provisions on administration of drugs and medicine above do not apply to drugs or medicine that are:

- a. purchased without a prescription;
- b. used by a pupil who is 18 years old or older;
- c. used in connection with services for which a minor may give effective consent;
- d. used in situations in which, in the judgment of the school personnel, including a licensed nurse, who are present or available, the risk to the pupil's life or health is of such a nature that drugs or medicine should be given without delay;
- e. used off the school grounds;
- f. used in connection with athletics or extracurricular activities;
- g. used in connection with activities that occur before or after the regular school day;
- h. provided or administered by a public health agency to prevent or control an illness or a disease outbreak as provided under Minnesota law;
- i. prescription asthma or reactive airway disease medications can be self-administered by a student with an asthma inhaler if:

- 1. Bluffview Montessori School has received a written authorization each school year from the pupil's parent permitting the student to self-administer the medication; Ordering Provider signature to self administer, child is older than the 5th grade and the

license nurse has no objections to this.

2. the inhaler is properly labeled for that student; and
3. the parent has not requested school personnel to administer the medication to the student.

In a school that does not have a school nurse or school nursing services, the student's parent or guardian must submit written verification from the prescribing professional which documents that an assessment of the student's knowledge and skills to safely possess and use an asthma inhaler in a school setting has been completed.

If Bluffview Montessori School employs a school nurse or provides school nursing services under another arrangement, the school nurse or other appropriate party must assess the student's knowledge and skills to safely possess and use an asthma inhaler in a school setting and enter into the student's school health record a plan to implement safe possession and use of asthma inhalers if needed.

- j. epinephrine delivery systems, consistent with Minnesota Statutes, section 121A.2205, if the parent and prescribing medical professional annually inform the pupil's school in writing that
 1. the pupil may possess the epinephrine or
 2. the pupil is unable to possess the epinephrine and requires immediate access to epinephrine delivery systems that the parent provides properly labeled to the school for the pupil as needed.
- k. For the purposes of Minnesota Statutes, 121A.22, special health treatments and health functions, such as catheterization, tracheostomy suctioning, and gastrostomy feedings, do not constitute administration of drugs or medicine.

- I. Emergency health procedures, including emergency administration of drugs and medicine are not subject to this policy.

B. Prescription Medication

1. A “Request Form for Administration of Medication/Procedure” must be completed annually (once per school year) and/or when a change in the prescription or requirements for administration occurs. Prescription medication as used in this policy does not include any form of medical cannabis as defined in Minnesota Statutes section 152.22, subdivision 6.
2. Prescription medication must come to school in the original container labeled for the student by a pharmacist in accordance with law, and must be administered in a manner consistent with the instructions on the label.
3. The school nurse may request to receive further information about the prescription, if needed, prior to administration of the substance.
4. Prescription medications are not to be carried by the student, but will be left with the appropriate Bluffview Montessori School personnel. Exceptions to this requirement are: prescription asthma medications self-administered with an inhaler (See Paragraph III.A.3(i) above), and medications administered as noted in a written agreement between Bluffview Montessori School and the parent or as specified in an IEP (individualized education program), Section 504 plan, or IHP (individual health plan).
5. The school must be notified immediately by the parent in writing of any change in the student’s prescription medication administration. A new medical authorization or container label with new pharmacy instructions shall be required immediately as well.
6. The school nurse, or other designated person, shall be responsible for the filing of the “Request Form for Administration of Medication/Procedure” in the health records section of the student file. The school nurse, or other designated person, shall be responsible for providing a copy of such form to the Head of School and to other personnel designated to administer the medication.
7. For drugs or medicine used by children with a disability, administration may be as provided in the IEP, Section 504 plan or

IHP.

8. If the administration of a drug or medication described in this section requires Bluffview Montessori School to store the drug or medication, the parent or legal guardian must inform the school if the drug or medication is a controlled substance. For a drug or medication that is not a controlled substance, the request must include a provision designating Bluffview Montessori School as an authorized entity to transport the drug or medication for the purpose of destruction if any unused drug or medication remains in the possession of school personnel. For a drug or medication that is a controlled substance, the request must specify that the parent or legal guardian is required to retrieve the drug or controlled substance when requested by the school.

C. Nonprescription Medication

Nonprescription medications such as Tylenol, Advil, Aspirin, and other “over-the-counter” medications may not be carried at school by students. To receive “over-the-counter” medications, the parent/guardian must submit a “Nonprescription Medications Permission Form” on an annual (every year) basis. The school may then administer such medications in accordance with dosage, frequency, age, etc. as indicated by the medication label. Over-the-counter medications must be left with appropriate Bluffview Montessori School personnel in its original container.

D. Possession and Use of Epinephrine Delivery Systems

1. Definitions

- a. “Administer” means the direct application of an epinephrine delivery system to the body of an individual.
- b. “Epinephrine delivery system” means a medication product approved by the United States Food and Drug Administration that automatically delivers a single, premeasured dose of epinephrine to prevent or treat a life-threatening allergic reaction.
- c. “School” means a public school under Minnesota Statutes, section 120A.22, subdivision 4, or a nonpublic school, excluding a home school, under section 120A.22, subdivision 4, that is subject to the federal Americans with Disabilities Act.

2. At the start of each school year or at the time a student enrolls in school, whichever is first, a student's parent, school staff, including those responsible for student health care, and the prescribing medical professional must develop and implement an individualized written health plan for a student who is prescribed epinephrine delivery systems that enables the student to:
 - a. possess epinephrine delivery systems; or
 - b. have immediate access to epinephrine delivery systems in close proximity to the student at all times during the instructional day if the parent and prescribing medical professional determine the student is unable to possess the epinephrine

For the purposes of this policy, "instructional day" is defined as eight hours for each student contact day.

The plan must designate the school staff responsible for implementing the student's health plan, including recognizing anaphylaxis and administering epinephrine delivery systems when required, consistent with state law. This health plan may be included in a student's Section 504 plan.

Bluffview Montessori School may obtain and possess epinephrine delivery systems to be maintained and administered by school personnel, including a licensed nurse, to a student or other individual if, in good faith, it is determined that person is experiencing anaphylaxis regardless of whether the student or other individual has a prescription for an epinephrine delivery system. The administration of an epinephrine delivery system in accordance with Minnesota Statutes, section 121A.2207 is not the practice of medicine.

Registered nurses may administer epinephrine delivery systems in a school setting according to a condition-specific protocol as authorized under Minnesota Statutes, section 148.235, subdivision 8. Notwithstanding any limitation in Minnesota Statutes, sections 148.171 to 148.285, licensed practical nurses may administer epinephrine delivery systems in a school setting according to a condition-specific protocol that does not reference a specific patient and that specifies the circumstances under which the epinephrine delivery systems auto-injector is to be administered, when caring for a patient whose condition falls within the protocol.

Bluffview Montessori School may enter into arrangements with

manufacturers of epinephrine delivery systems to obtain epinephrine delivery systems at fair-market, free, or reduced prices. A third party, other than a manufacturer or supplier, may pay for a school's supply of epinephrine delivery systems.

The Commissioner of the Minnesota Department of Health must provide Bluffview Montessori School with a standing order for distribution of epinephrine delivery systems under Minnesota Statutes, sections 148.235, subdivision 8 and 151.37, subdivision 2.

E. Sunscreen

A student may possess and apply a topical sunscreen product during the school day while on school property or at a school-sponsored event without a prescription, physician's note, or other documentation from a licensed health care professional. School personnel are not required to provide sunscreen or assist students in applying sunscreen.

F. Procedure regarding unclaimed drugs or medications

1. Bluffview Montessori School has adopted the following procedure for the collection and transport of any unclaimed or abandoned prescription drugs or medications remaining in the possession of school personnel in accordance with this policy. Before the transportation of any prescription drug or medication under this policy, Bluffview Montessori School shall make a reasonable attempt to return the unused prescription drug or medication to the student's parent or legal guardian. Transportation of unclaimed or unused prescription drugs or medications will occur at least annually, but may occur more frequently at the discretion of Bluffview Montessori School.
2. If the unclaimed or abandoned prescription drug is not a controlled substance as defined under Minnesota Statutes section 152.01, subdivision 4, or is an over-the-counter medication, Bluffview Montessori School will either designate an individual who shall be responsible for transporting the drug or medication to a designated drop-off box or collection site or request that a law enforcement agency transport the drug or medication to a drop-off box or collection site on behalf of Bluffview Montessori School.
3. If the unclaimed or abandoned prescription drug is a controlled substance as defined in Minnesota Statutes section 152.01, subdivision 4, Bluffview Montessori School personnel are prohibited from transporting the prescription drug to a drop-off box or collection site for prescription drugs identified under this paragraph. Bluffview

Montessori School must request that a law enforcement agency transport the prescription drug or medication to a collection bin that complies with Drug Enforcement Agency regulations, or if a site is not available, under the agency's procedure for transporting drugs.

IV. ACCESS TO SPACE FOR MENTAL HEALTH CARE THROUGH TELEHEALTH

- A. Beginning October 1, 2024, to the extent space is available, the school must provide an enrolled secondary school student with access during regular school hours, and to the extent staff is available, before or after the school day on days when students receive instruction at school, to space at the school site that a student may use to receive mental health care through telehealth from a student's licensed mental health provider. A secondary school must develop a plan with procedures to receive requests for access to the space.
- B. The space must provide a student privacy to receive mental health care.
- C. A student may use a school-issued device to receive mental health care through telehealth if such use is consistent with the school policy governing acceptable use of the school-issued device.
- D. A school may require a student requesting access to space under this section to submit to the school a signed and dated consent from the student's parent or guardian, or from the student if the student is age 16 or older, authorizing the student's licensed mental health provider to release information from the student's health record that is requested by the school to confirm the student is currently receiving mental health care from the provider. Such a consent is valid for the school year in which it is submitted.
