Hi Henry and Ann,

Regrettably, I will not be able to continue in my role as a community member on the BMS Board of Directors and am resigning effective today.

I have been grappling with this decision for a few weeks trying to find a way to make it work but I have been asked to assume some additional professional responsibilities that will divert my attention and claim my Weds. evenings. When Henry reached out with his request I was (and still am) honored and enthusiastic due to my years of heartfelt appreciation for BMS in my life.

Please thank the other members and know that I remain one of your biggest supporters in the community. Best wishes for continued success.

Karen

P.S. Henry, I am still happy to share my historical memory and old yearbooks to identify past families who may be willing to support a capital campaign.

Karen Sullivan
WSU Children's Center - Director (Interim)
