Charter School #4001

SCHOOL PROGRAM DESCRIPTION

SCHOOL EXECUTIVE SUMMARY

Bluffview Montessori School is a small, tuition-free, Montessori charter serving students in preschool through grade eight located in Winona, Minnesota. Bluffview Montessori School is guided by the teaching philosophy and methods of Dr. Maria Montessori.

Bluffview became the nation's first charter school in the nation in 1993, with Winona Area Public Schools (WAPS) serving as its authorizer. According to its Articles of Incorporation, Bluffview was organized exclusively for nonprofit purposes and to "create a *quality* Montessori school for children." The school pursues this through a distinctive Montessori approach that embodies individualized instruction, mixed age groupings, an international curriculum, a prepared environment, and didactic Montessori teaching materials.

Bluffview moved into its current building on November 14, 2000. The building was designed specifically to be a Montessori school environment and presently serves more than 200 K-8 students, in addition to its tuition-based preschool program.

School Mission Statement

Bluffview Montessori School empowers self-directed learning through a materials-based Montessori curriculum that encourages independence and natural curiosity. Bluffview cultivates learners' deep respect for self, community, and a peaceful environment, while nourishing the intrinsic desire for academic, civic, and personal fulfillment.

School Vision Statement

Empowered learners unfolding their full potential as whole and unique persons in a global community.

The BMS Our Mission and Vision statements anchor our decision making at every level, from teachers to administrators, committees to the Board of Directors. In essence, Montessori promotes independence; our primary ambition at Bluffview is to empower all people associated with the school to grow as independent learners, capable of pursuing whatever goals or paths they may choose.

LEARNING PROGRAM

- **The school plans for curricula, tools, methods and instructional techniques that will continue to support the educational philosophy of the school over the next contract term.**

BMS strictly adheres to American Montessori Society (AMS) methodology. The American Montessori Society (AMS) recognizes five core components as critical to high-fidelity implementation of the Montessori method. Bluffview implements all five of them:

Trained Montessori teachers
Multi-age classrooms
Didactic Montessori materials
Child directed work
Uninterrupted work periods

Walk into a Montessori classroom, and its differences from a typical school classroom are immediately noticeable. For one thing, one won't find a desk for each student (although one will find a number of tables and other working areas). That is because the children are generally allowed to move freely during the extended work periods, choosing their own work within the framework provided by their teacher. And they have lots to choose from; the walls are lined with low shelves, all filled with neatly arranged, custom-made learning materials.

But perhaps the most striking feature of the Montessori experience is seeing twenty or more young students, all productively occupied with their chosen tasks. Some work individually, others in groups. The room may not be perfectly quiet, but by and large the students seem calm and intent on their work.

ROLE OF THE TEACHERS: Bluffview classrooms usually have two teachers: a Montessori-certified lead teacher and an assistant teacher. During the extended work period, you will often find them demonstrating a work to a student or a small group of students, or perhaps assisting a student who asks for guidance. Although teachers do lead group activities (such as class meetings) on a daily basis, the emphasis is on individualized learning.

The Montessori teacher (actually referred to as a Montessori Guide) plays a crucial role in creating an environment for student exploration and learning. Dr. Maria Montessori once described the teacher's

role in this way: “The educator must be as one inspired by a deep worship of life. And through this reverence, respect, while he observes the development of each individual child’s life.” The art of teaching in Montessori lies not in clever lesson planning, but in really knowing and observing each child and understanding what he or she needs to grow. An experienced Montessori teacher knows when to guide the child, and when to follow the child’s natural interests.

The Montessori teacher has three main tasks: observation, instruction, and skillful self-restraint.

➤ Observation

Dr. Montessori believed that “from the child itself [the teacher] will learn how to perfect himself as an educator.” Montessori teachers tailor their approach depending on the needs of the child. They do this by becoming expert observers of each child. To inform the help they provide, teachers are trained to notice things such as:

- which materials seem to attract the child
- how long the child remains interested in a particular work
- what level of mastery the child has achieved with that work
- whether the child was developmentally ready to receive a particular instruction
- what skill areas the child needs to practice.

➤ Giving instruction

The purpose of instruction is to spark a child’s interest in a way that makes the child want to find his or her own answers to subsequent questions. Instruction is given through Great Lessons (also sometimes called Key Lessons)—stories that offer a big-picture framework that serve as a starting point for more detailed investigation. Instruction is also given by showing the child how to use a specific material and then leaving him or her to do the real learning through hands-on interaction with it. Instructions are clear, brief, and as simple as possible. They are also carefully timed so as not to impose an adult agenda onto the natural unfolding of the child’s development. “The protection of the children’s right not to be interrupted when productively occupied is key to the children’s development of concentration and interest in their work,”

Montessori said.

➤ Skillful self-restraint

One of the most difficult skills a Montessori teacher must master is self-restraint. Knowing when to offer helpful guidance, rather than over-correcting or overly directing a child’s work, requires faith in the “exploring spirit” of the child and a good measure of humility. Montessori had deep respect for the “triumphant inner force,” which “sends the world forward,” and nurtured it in her schools.

The fact that the typical Montessori environment today so closely resembles the ones originally crafted by Dr. Montessori—in her “Casa dei Bambini,” or Children’s House—a century ago is a testament to the soundness of her vision. That vision was not based on fads or political whims but was rooted in a deep compassion for the children in her care and developed over many years through careful, scientific observation of how they learned. Through her early work with impoverished and mentally disabled students, she came to a crucial insight: children naturally want to learn, and when they are provided with an environment that has been carefully prepared to support this desire, they willingly and happily engage in learning.

THREE KEY FEATURES OF THE MONTESSORI ENVIRONMENT: atmosphere, materials, and mixed-age learning.

- **Atmosphere.** The classroom is a calm, pleasant space in which the child is free to develop himself using a multitude of interesting materials tailored to stimulate his curiosity and intellect. A connection with nature and freedom of movement are essential elements of the classrooms. Montessori ardently opposed stationary desks and chairs. “The task of the educator lies in seeing that the child does not confound good with immobility and evil with activity,” she said. Rather, she believed that mental development must be connected with movement; consequently, in Montessori schools, children can freely move and select their work.
- **Materials.** The materials, called “works,” are hands-on and very interesting to children. The materials have the quality of making mistakes self-evident to the child (i.e. auto-correction) so that the child can use his or her own problem-solving abilities to find the solution. This frees the child to learn through manipulating the materials, rather than relying on constant instruction and correction from the teacher. This independence also allows the child to know for himself “the thrill of discovery of the unknown.” Materials are designed to meet the child’s developmental needs. “Correct use of Montessori materials guides children’s minds from the concrete to the abstract, whence children’s creative imaginations can take over,” according to Montessori education pioneer P. Polk Lillard.
- **Group Work & Grade Levels.** Many materials and projects are conducive to group work. Furthermore, three grade levels share the same classroom outfitted for their shared developmental level. Consequently, peer learning and collaboration can occur even between grade levels for children with shared interests, and older children have the opportunity to model skilled social behavior and leadership.
- **The school research or school history which demonstrates that these curricula, tools, techniques and methods support student achievement.**

The Montessori approach is practiced today in more than 5,000 schools across the United States, and the benefits of a Montessori education are clear. A six-year study of 3,000 business executives found that the most innovative ones were best able to make connections among seemingly unrelated concepts, ask questions that lead to deeper insights, observe details, experiment, and collaborate with others—skills emphasized in Montessori education. “A number of the innovative entrepreneurs went to Montessori schools, where they learned to follow their curiosity,” says one of the study’s authors in the Harvard Business Review. Google founders Larry Page and Sergei Brin have repeatedly credited their success to their early childhood Montessori education. “I do think I benefited from Montessori education, which in a lot of ways gives students a lot more freedom to do things at their own pace, to discover,” Brin says.

The school’s seventh and eighth grade program (which Maria Montessori called Erdkinder) strives for high academic expectations, community involvement, and an atmosphere of respect. Our program prepares students very well both for high school and for productive adult lives. Our teachers believe in creativity and innovation in education and emphasize every student doing their best quality work at all times. Our low student-teacher ratio creates strong relationships and

allows for individual attention. All students have the same teachers for both seventh and eighth grade; in this way, a great deal of trust and rapport is built up between teachers, students, and families.

Montessori education is sometimes portrayed as a trendy educational choice for children who grow up in privileged families, but Montessori education got its start more than a century ago with children who were mentally disabled and economically disadvantaged, and it has continued to be successful with such populations today. A 2006 study published in the journal *Science* found that children enrolled in an inner-city public Montessori school had excellent outcomes compared to their non-Montessori peers. According to East Dallas Community Schools, a non-profit organization that runs several Montessori schools, "In a neighborhood where less than half of entering freshmen graduate from high school, 95% of EDCS graduates earn their diplomas, with 89% of those graduates attending college."

The school's specific tools for improving curriculum, instruction and student achievement can be found at the following web address:

<https://www.bluffviewmontessori.org/school-board/worlds-best-workforce-plan/tools-for-improving-curriculum-instruction-and-student-achievement/>

- **The school process used to ensure the curricula will align with Minnesota State Academic Standards during the next contract term.**

Montessori education at Bluffview has been aligned with the state standards. The latest was aligning math standards through a 2 year process by identifying which Montessori lessons fulfill the standards, drafting a pacing guide, I can statements, and working on adding formative assessments to the teacher process to ensure that the materials are being understood. One piece of this effort was to utilize the Pearson District Benchmark Reports to really target any strands that were lagging. We will be undertaking the alignment of science or ELA next. A specific note to demonstrate alignment-in Montessori, math facts are taught in the following order-addition, multiplication, subtraction, then division. At Bluffview we teach addition followed by subtraction to align with the standards. This is a significant compromise to the integrity of our programming, but it fits with the state driven expectations.

- **The school should explain the contribution it will make in assisting educationally and economically disadvantaged and other students to succeed academically during the next contract term.**

As stated above, Montessori education got its start more than a century ago with children who were mentally disabled and economically disadvantaged, and it has continued to be successful with such populations today. Explanation of the Service- Learning Component.

Bluffview maintains a sincere focus on celebrating the individual child, meaning that the school embraces who they are and how they learn. One of the foundational tenets of a Montessori school is to meet children where they are, and to facilitate their growth and development as whole and unique persons. This is accomplished through the use of beautiful didactic materials that encourage students to engage in hands-on learning. This materials-based pedagogy enables students to learn concrete and abstract concepts simultaneously. This approach includes a strong focus on learning not only academics, but practical life skills as well.

These practical life skills also facilitate service learning, as the older students often help with classroom and school tasks. They may volunteer in the kitchen to wash dishes, take responsibility for cleaning tables after lunches or snacks, or work with our building manager to aid in the completion of a project. The older students also meet with their reading buddies in the Children's House classrooms once per week.

Visitors often wonder about the reasons for combining multiple grade levels in one classroom—what we call mixed-age learning. The primary reason for this structure is that older students are encouraged to assist younger students, which gives the younger students extra help as needed while enabling the older students to develop leadership and teaching skills. This demonstrates that service to others is embedded in the Montessori philosophy and thus is central to Bluffview's approach to teaching.

Bluffview hosts regular service-learning events, such as its annual Happy Harvest. During this November event, parents come to school and circulate with their children to different learning environments to make gifts for community members: hot chocolate mix for fire fighters, trail mix for police officers, hygiene kits for the homeless, and fleece blankets for Hope Harbor teens.

School leadership also practices service to others by maintaining a focus on servant leadership. Administration maintains an "open door policy" and makes every effort to meet the needs of the staff. For example, upon discovering that many of our staff lacked wills, administration brought in an attorney to do an "estate planning party." We invited all staff to come and hear a presentation, and, through this process, we were able to negotiate a 50% reduction in requisite legal fees.

Explanation of Student Behavior Management System plans for the next contract term.

BMS follows a multi-tiered system of support – Response to Intervention (RTI). Response to Intervention (RtI) is a multi-level framework for student growth in the classroom. The framework provides a process for teachers to ensure personalized learning for all students to reach their potential. The foundation of RtI includes: data collection, instruction, and interventions. RtI is about clearly identifying students' needs, designing a tiered system of support that rests on strong core instruction, frequently monitoring all students, and changing interventions when students are not progressing to their expected level or are learning faster than other students. With response to instruction and systemic intervention strategies, all students can achieve success through growth. Bluffview is also a PBIS school, and uses SWIS to track behaviors as well as a Fastbridge assessment to quantify behaviors for the RTI process.

Explanation of general mission/goal-centered plan for professional development over the next contract term.

Bluffview's pedagogy committee is primarily responsible for planning professional development. Our goals are to incorporate certain elements annually that are required for teacher relicensure like positive behavioral intervention strategies, early-onset mental health and suicide awareness, literacy, and EL. BMS also tries to incorporate at least one Montessori PD session that all staff attends. We review survey

data from the previous year and search for some indicators that may be relevant to the current staff.

The plan for the next contract term will be driven by staff need as dictated by staff turnover, behavior data, and student achievement data around core subjects.

DESCRIPTION OF BOARD GOVERNANCE AND BOARD ELECTIONS PLANS

Explanation of board roles and responsibilities in addition to the statutory requirements.

The Charter Law requires the board of directors to decide and be responsible for policy matters related to the operation of the school, including budgeting, curriculum programming, personnel, and operating procedures. The board shall maintain a policy on nepotism in employment. The board shall maintain personnel evaluation policies and practices that, at a minimum: (1) carry out the school's mission and goals; (2) evaluate the execution of charter contract goals and commitments; (3) evaluate student achievement, post-secondary and workforce readiness, and student engagement and connection goals; (4) establish a teacher evaluation process; and (5) provide professional development funding related to the individual's job responsibilities.

Charter School Law requires that every charter school board member attends annual training throughout the member's term on the board. All new board members are required to attend initial training on the board's role and responsibilities, employment policies and practices, and financial management. A new board member who does not begin the required initial training within six months after being seated and complete that training within 12 months of being seated on the board is automatically ineligible to continue to serve as a board member. The school board maintains a record of member board training and also sends copies to Authorizer Volunteers of America of Minnesota. In summary, the school board is responsible for:

1. Hire/evaluate director.
2. Set & maintain & promote mission, vision, strategic plan.
3. Sign contracts and approve employment matters.
4. Provide oversight of state/MDE, federal and charter authorizer requirements.

School Board Officer Positions include: Chair, Vice-Chair, Secretary, and Treasurer.

Description of the board elections process:

Consistent with the Charter School Law, the school notifies eligible voters of the school board election dates at least 30 days before the election. School elections are held on an annual basis at a time and date set by the board and in accordance with statutes. Staff members employed at the school, including teachers providing instruction under a contract with a cooperative, members of the board of directors, and all parents or legal guardians of children enrolled in the school are the voters eligible to elect the members of the school's board of directors.

- New members are elected annually in the spring, generally in the month of May.
- Election results are announced at our Annual meeting in May.
- Newly elected board members are inducted/seated at the July board meeting.
- A full description of the school election process is maintained on the School Website.
- The term of office is held for 3 years.

In that review they give their opinions and perspectives on the school climate and their, overall, satisfaction with the school. Monthly department meetings consistently review and measure our growth in academics and classroom environments as well as align goals and curriculum.

- **Explanation of World's Best Workforce Plans**

Bluffview completes a combined WBWF Plan and Annual Report in one document. It is posted on the school website upon completion and used to complete the annual MDE required WBWF submission. It includes all required elements including but not limited to Head of School goals, Professional development, achievement gap and other required reporting goals along with previous years outcomes, Board and staff information, and a good deal of general information about the school.

SCHOOL CALENDAR AND SCHEDULE

The Academic Calendar is annually posted on the BMS website at <https://www.bluffviewmontessori.org/calendar/>

Students are expected to arrive to class prepared to learn. While tardiness is defined as arriving late for class, students should be prepared for class by arriving before class actually begins. Therefore, the school day is acknowledged to begin at 7:50 rather than at 7:45, which is the time that class is in session. Students should use these 5 minutes to prepare for the educational process by removing hats, putting away electronic devices, cell phones, and preparing for class so that they are ready to learn when class begins.

School start Time: 7:45

School Dismissal Time: 2:15

SCHOOL FACILITY PLANS

Bluffview moved into its current building on November 14, 2000. The building was designed specifically to be a Montessori school environment and presently serves more than 200 K-8 students, in addition to its tuition-based preschool program.

SCHOOL ANTICIPATED TRANSPORTATION PLANS

Bluffview transportation is provided by the resident school district, Winona Area Public Schools.

SCHOOL ANTICIPATED PROGRAM / ENROLLMENT GROWTH

Minnesota Statute 124E, set forth certain requirements the School must follow when enrolling students. The School may limit admission to:

- (1) pupils within an age group or grade level;
- (2) pupils who are eligible to participate in the graduation incentives program; or
- (3) residents of a specific geographic area in which the school is located when the majority of students served by the school are members of underserved populations.

The School shall enroll an eligible pupil who submits a timely application, unless the number of applications exceeds the capacity of a program, class, grade level, or building. In this case, pupils must be accepted by lot. The charter school must develop and publish, including on its Web site, a lottery policy and process that it must use when accepting pupils by lot.

The School shall give enrollment preference to a sibling of an enrolled pupil and to a foster child of that pupil's parents and may give preference for enrolling children of the school's staff before accepting other pupils by lot.

The School may not limit admission to pupils on the basis of intellectual ability, measures of achievement or aptitude, or athletic ability and may not establish any criteria or requirements for admission that are inconsistent with this subdivision.

The School shall not distribute any services or goods of value to students, parents, or guardians as an inducement, term, or condition of enrolling a student in a charter school.

The School will abide by the board approved school enrollment policy and procedures and applicable laws.

FINANCIAL CONDITION OF THE SCHOOL **Budget Narrative: Describe Financial Health Sustainability**

Financial Management Practices - Bluffview contracts with BergenKDV to manage our financial work. The school contracts CliftonLarsonAllen to conduct annual audits.

The school's current amount of General Education Aid and anticipated over the contract term.

BMS anticipates only modest if any increase in the General Education Aid (including Compensatory Education Aid).

The school's current amount of Special Education Funding and anticipated over the contract term.

Special Education Funding, roughly based on program costs, will be relatively flat as there are no expected significant changes in the special needs student population, or the staffing needs during the 5 year period.

The school's current amount of Building Lease Aid and anticipated over the contract term. BMS has an affiliated building corporation. The 5-year lease projection assumes the school location will remain the same with a small increase in the base rent. **Detailed 5 Year long range budget projection is below:**

PRIMARY PURPOSE (M.S. 124E.01): The primary purpose of the charter school is to improve all pupil learning and all student achievement.

MEASURE: MCA exams

PERFORMANCE STANDARDS / EXPECTATIONS: Academic Performance Standards below.

REPORTING: Progress meeting these expectations is a required element of the Annual Report and “World’s Best Workforce” Plan.

STATUTORY PURPOSE II (MS 124E.01): Increase learning opportunities for all pupils.

PERFORMANCE EXPECTATIONS – The school provides unique opportunities to students as a Montessori School and will incorporate Service Learning into the school program. Service Learning will include locally determined specific learning outcomes students are to achieve.

REPORTING: Progress meeting these expectations is a required element of the Annual Report and “World’s Best Workforce” Plan.

ADDITIONAL PURPOSE (M.S. 120B.11): The school is to meet the outcomes adopted by the Commissioner for all public school students under Minnesota Statutes, section 120B.11 (“World’s Best Workforce”), applicable to elementary schools. Specifically, that 1) all children are ready for school; 2) all third-graders can read at grade level, and 3) all racial and economic achievement gaps between students are closed.

GOALS: locally determined, board approved annually for each of the outcomes.

REPORTING: Element of the Annual Report and “World’s Best Workforce” Plan.

Introduction

As a leading authorizer, Volunteers of America–Minnesota builds its portfolio of high-performing charter schools by only selecting proposals with a strong potential for success. It then ensures that such potential is realized through a unique system of accountability that begins even before a school opens its doors.

VOA-MN is committed to fulfilling its role as a charter school authorizer by holding its schools accountable for a range of results. The accountability system presented in this document ensures that VOA-MN will uphold its legal obligation to make sure the schools it authorizes are reaching (or making adequate progress toward) the goals and benchmarks outlined in its charter contract and Minnesota statute.

VOA-MN uses a standard charter contract with unique school-specific terms that capture different approaches to achieving student success. The individuality of each school will be preserved in the “Academic Program Description” addendum to the charter contract.

Volunteers of America of Minnesota Accountability Plan

According to Minnesota Statute 124E.01, subd.1, *The primary purpose of charter schools is to improve all pupil learning and all student achievement.* VOA-MN holds the schools it authorizes accountable in five major areas: academic performance, fiscal management, board governance, management and operations, and legal compliance. Each area may have multiple indicators of success and the charter school’s performance on each indicator will be rated as:

Meets standard;
Partially meets standard;
Does not meet standard.

Rating Scale: For each standard, a school earns points for contract renewal as follows:

0 = Does Not Meet Standard
1 = Partially Meets Standard
2 = Meets Standard

Weighting of Performance Measures used during the contract renewal process is as follows:

50% weighting: Academic Program (statutory purposes, including primary purpose)
20% weighting: Financial Sustainability
30% weighting: Organization
15% governance
15% management & compliance

Combining Data Over the Contract Term

Annual school performance results will be combined each successive year of the contract term wherever possible so that fluctuation due to small group size will be minimized and overall performance is accurately reflected.

Contract Renewal Eligibility

VOA-MN schools must achieve at least a Satisfactory Rating (70% of points possible) in the Performance Framework overall and meet the majority of standards in each performance area (Academic, Financial, Organizational Performance) to be eligible for a three-year contract renewal and at least an Exemplary Rating (80% of points possible) in the Performance Framework overall and meet the majority of standards in each performance area to be eligible for a five-year contract renewal. All contract renewals will be for either three or five years. Fewer than three years does not provide enough information on which to make a renewal decision.

If a school is performing below standard to receive a three-year renewal contract, but has agreed to the authorizer terms and conditions set forth in the School Improvement Plan to correct areas of deficiency, VOA-MN may agree to extend a school's contract (not to exceed five years) to provide additional time for a school to improve performance as an alternative to termination. If sufficient school improvement is not being made by the end of the 1st year of the extension, termination proceedings will commence.

Intervention and Corrective Action

VOA-MN schools that, prior to their year of contract renewal, fall below a Satisfactory Rating in the Performance Framework overall and/or in any performance area (Academic, Finance, Governance, Management/Operations) must enter into a School Improvement Plan that addresses the specific standards in the Performance Framework where the school performance is below Satisfactory.

Closure Plan

If the school does not meet the terms of the School Improvement Plan and attain a Satisfactory Rating by the end of the contract term, the school is a candidate for nonrenewal. If the school's contract is not renewed, the school must implement the Closure Plan as described in the school's charter contract.

Three essential questions guide our VOA-MN authorizer oversight and charter school accountability plan.

Academic Program Performance - Is the school's Learning Program a Success?

Academic Performance- All public schools, including charters, must fully participate in the state assessments - Minnesota Comprehensive Assessments. Data from state assessments as well as Title 1 Designation consistent with the state North Star system will be compiled and evaluated in the Annual VOA-MN Authorized Charter Schools Academic Performance Report by the authorizer. Charter schools are required to meet the academic performance standards for which they agree to be held accountable in their charter contract. The extent to which a school is meeting their World's Best Workforce requirements and additional statutory purposes are also measured in the Learning program section.

The VOA-MN Charter School Authorizing Program publishes annually an Academic Performance Report on their network of authorized charter schools. The report serves as a single annual source of academic program and performance information for all of our VOA-MN operational charter schools. The report contains an analysis of annual and cumulative academic program, performance, and professional development data for each school.

Content from the annual Academic Performance Report also serves as the basis for the school academic performance analysis contained in the statutorily required Contract Renewal Evaluation Reports, including evaluation of the extent to which the school has met their primary purpose, “to improve all pupil learning and all student achievement” during the contract term.

The VOA-MN determined academic performance standards contained below are uniform for all VOA-MN charter schools. The standards are contained in VOA-MN Charter Contract Addendum B (School Accountability and Authorizer Oversight System) and serve as the basis for both annual authorizer monitoring of school academic performance and contract renewal determinations. *The authorizer reserves the right to have flexibility to reasonably amend these standards /expectations as needed (example: based on cell size being to small). One sample rating scale is imbedded below to provide the reader with context.*

VOA-MN’s academic performance standards/expectations include the following:

Academic Performance Standard 1 - Students are performing well on state examinations in comparison to students at schools they might otherwise attend (with similar demographics) as evidence of meeting their primary statutory purpose of improving all pupil learning and all student achievement. Imbedded WBWF. (Data Source: Evidence / Source: Minnesota Department of Education). Scale:

0 = School’s average proficiency rate is less than the average performance of students in schools they might otherwise attend.

1 = Partially meets standard - School’s average proficiency rate meets or exceeds the average performance of students in schools they might otherwise attend in one or two subjects (math, reading and science) but not all three.

2 = Meets standard - School’s average proficiency rate exceeds the average performance of students in schools they might otherwise attend.

Academic Performance Standard 2 - Over the term of the contract, the school will maintain a minimum combined achievement level of 62.7% in math and 67.0% in reading on the North Star Academic Achievement Report (Improved + Maintained) as evidence of meeting their primary statutory purpose of improving all pupil learning and all student achievement. Scale:

0 = Does not meet standard - School's achievement level of "increased and maintained" is below 50%

1 = Partially meets standard - School's achievement level of "increased and maintained" is between 70% and 50%

2 = Meets standard - School's achievement level of "increased and maintained" is 70% or higher

Alternative Standard 2 for schools grades 9-12 only – DOES NOT APPLY TO BMS

Academic Performance Standard 2 (alternative) - Over the term of the contract, the school's four-year adjusted cohort graduation rate will remain above 80%. *Imbedded WBWF Standard: All students graduate from high school. (Evidence / Source: Minnesota Department of Education) Scale:

0 = Does not meet standard - School's four-year adjusted cohort graduation rate is below 75%.

1 = Partially meets standard - School's four-year adjusted cohort graduation rate is between 75%-80%

2 = Meets standard - School's four-year adjusted cohort graduation rate is 80% or higher.

Academic Performance Standard 3 - The difference between the “all-students” proficiency rate in the School and any reportable student group proficiency rate will be reduced over the term of the contract in both reading and math using state examination data as evidence of the School meeting their primary statutory purpose of improving all pupil learning and all student achievement. Imbedded WBWF Standard: all racial and economic achievement gaps between students are closed. (Evidence / Source: Minnesota Department of Education). Scale:

- 0 = The difference between the “all-students” proficiency rate and all reportable student group proficiency rates has increased.
- 1 = The difference between the “all-students” proficiency rate and at least one student group proficiency rate has been reduced.
- 2 = The difference between the “all-students” proficiency rate and all student group proficiency rates has been reduced.

Academic Standard 4: The school has adopted a formal teacher evaluation process and adheres to the requirements set forth in Minnesota Statute 122A.40. (Data/Source: AASC Annual Report) Scale:

- 0 = School has not adopted a teacher evaluation process.
- 1 = Meets some of the criteria, but no evidence that process is followed.
- 2 = Meets all criteria and is adhered to.

Academic Standard 5: All teachers are supported through a school-wide professional development plan that is based on analysis of assessment data and directly linked to improving all pupil learning and all student achievement. (Data / Source: School Annual Report) Scale:

- 0 = The school has not adopted a school-wide professional development plan.
- 1 = The school has a school-wide professional development plan, but the reviewer could not conclude that the plan was tied to data-driven decision-making.
- 2 = The school has adopted and followed a school-wide, data-driven professional development plan.

Academic Standard 6: The school is meeting their additional purposes (MS 124E.01, Subd 1; Charter Contract Addendum B). (Data Source: School Annual Report) Scale:

- 0 = The school does not have a plan for meeting their additional statutory purposes and measuring progress.
- 1 = The school has a plan for meeting their additional statutory purposes and is partially meeting them.
- 2 = The school has a plan and is meeting their additional statutory purposes.

Academic Standard 7: The school is meeting the World’s Best Workforce goals (MS 120B.11; Charter Contract Addendum B). (Data Source: School Annual Report) Scale:

- 0 = The school does not have a plan for meeting their WBWF goals and measuring progress.
- 1 = The school has a plan for meeting their WBWF goals and is partially meeting them.

Financial Sustainability – Does the School Exhibit Strong Financial Health?

Charter schools receive public funds and must meet generally accepted standards of fiscal management. It is VOA-MN’s duty to ensure that the schools are responsible stewards of public funds. The charter school shall provide VOA with a copy of its draft and final annual budgets and monthly cash flow projections for each fiscal year by July 1 of each fiscal year. VOA-MN shall use submitted budget and cash flow statements, along with any other relevant information, to determine if the charter school has a realistic balanced budget plan for the current year. VOA-MN shall use the financial statements presented in the charter school’s annual financial audit, along with any other relevant information, to determine if the charter school maintained a balanced budget during the prior-year. Schools are expected to have audits that are free of all findings.

The VOA-MN Charter School Authorizing Program publishes annually a School Financial Oversight Report on their network of authorized charter schools. The parties acknowledge that the Minnesota Charter Schools Law requires a charter school to meet generally accepted standards of fiscal management. This requirement has two underlying purposes: to monitor the financial health of the school and compliance with state and federal laws, including proper use of public funds. The report will contain an evaluation of school performance meeting the VOA-MN financial standards.

The VOA-MN determined school financial standards contained below are uniform for all VOA-MN charter schools. The standards are contained in VOA-MN Charter Contract Addendum B (School Accountability and Authorizer Oversight System) and serve as the basis for both annual authorizer monitoring of school financial health and contract renewal

determinations. The authorizer will monitor school performance meeting these standards on an ongoing basis and the standards shall be evaluated in the annual VOA-MN Network Finance Report. The standards also serve as the criteria for contract renewal determinations. *The authorizer reserves the right to have flexibility to reasonably amend these standards /expectations as needed (example: fund balance standard may be negotiated based on school length of operation or size). One sample rating scale is imbedded below to provide the reader with context.*

Governance - Is the organization effective and well run?

Effective board governance is essential to the successful start-up and operation of a public charter school. The diversity of charter school board memberships – teachers, parents, community leaders, and volunteers – heightens the importance of consistent expectations and development activities.

The authorizer regularly monitors the performance quality of the school board based on authorizer observations; interviews with the director, board and faculty; and the review of school policies, reports and board meeting minutes. A school must have a governance model that provides quality oversight by ensuring that there are checks and balances between the board and the school administrators.

A school board is responsible for developing, implementing, and assessing policy; defining sound employee relations; conducting open meetings; recognizing and conforming to the legal mandates imposed by state and federal laws; and governing within the limits of a delegation of state authority – as a nonprofit and public-school board. Additionally, the board has an obligation to assess its successes and failures; inform the public of all deliberations and decisions; promote accountability; enhance public understanding of its mission; conform to standards of ethical behavior; provide a framework for setting goals; and develop strategic plans for the accomplishment of those goals.

The VOA-MN Charter School Authorizing Program publishes annually a School Board Governance Report on their network of authorized charter schools. The purpose of this report is to be a single annual source on the board operations and compliance of the eighteen VOA-MN- authorized charter schools. Authorizer VOA-MN also observes a minimum of two school board meetings annually.

The VOA-MN determined school board governance standards contained below are uniform for all VOA-MN charter schools. The standards are contained in VOA-MN Charter Contract Addendum B (School Accountability and Authorizer Oversight System) and serve as the basis for both annual authorizer monitoring of school board performance and contract renewal determinations. Legal and Contractual Compliance - Charter schools are required to follow many state and federal laws pertaining to all public schools and are expected to uphold all provisions of the charter school contract. VOA-MN expects compliance with legal and contractual obligations. Each VOA-MN authorized charter school shall maintain a Compliance Binder on site that includes VOA-MN defined evidence of compliance with state and federal statutes organized in the manner prescribed by VOA-MN. Additionally, VOA-MN authorized charter schools shall submit information to the authorizer in accordance with the VOA-MN prescribed Annual Submission Calendar. Management and operations of the school will be monitored by the authorizer and reported in the Formal Site Visit Report and additionally as needed. *This section is not scored individually. The compliance binder and submission calendar are systems for ongoing monitoring of school performance and compliance and compliance requirements are imbedded in previous sections.*

ONGOING AUTHORIZER SCHOOL MONITORING

SITE VISITS

One of the most important ways VOA-MN gathers information about the schools it authorizes is through on-site visits. Site visits allow the authorizer to observe the school and engage in discussions with school management. VOA-MN conducts two different types of site visits: Formal and Informal.

Formal Site Visit- Formal Site Visits are typically conducted once per year by a member of the VOA-MN Authorizing Program Leadership Team who interviews key stakeholders and conducts observations. Written feedback is provided to the Board of Directors and school leadership guided by the Site Visit Rubric. VOA-MN staff will provide formal written feedback summarizing observations. The feedback will identify areas of strength and areas that require improvement. If a more serious issue arises from a site visit, VOA-MN may implement an intervention based upon the “Range of Interventions” table.

Informal Site Visit- VOA-MN may conduct informal site visits at any time to fulfill its duties as an authorizer. Reasons for informal site visits may include: investigation of a complaint, determination of readiness to open, follow up on implementation of improvement plans, or documentation of best practices. These visits are typically less formal and may be without notice.

BOARD MEETINGS

Another important component of VOA-MN authorizer oversight is board meeting observations conducted at least twice per year and more often for schools within their first two years after initial charter approval. Authorizer VOA-MN uses the Board Meeting Observation Rubric and provides timely feedback to the school boards. VOA-MN also closely monitors the monthly board meeting minutes and financials of each authorized school and provides feedback to the school as needed.

SCHOOL PUBLISHED ANNUAL REPORTS

The Charter School Law (Minn. Stat. 124E.16) includes requirements for a charter school annual. Additionally, VOA-MN requires that annual reports include specific elements defined by VOA-MN annually. VOA-MN required elements include how the school is performing based on the three essential questions: Is the student learning program a success? Does the school exhibit strong financial health? Is the organization effective and well-run? The final draft be board approved and posted to the school’s official website. The VOA-MN Annual Report criteria may contain the World’s Best Workforce Report.

AUTHORIZER PUBLISHED SCHOOL PERFORMANCE REPORTS

In addition to the Formal Site Visit Report that each school is provided, VOA-MN will also annually publish three VOA-MN Charter School Network Reports: Academic Performance, Board Governance, and Financial Management. The cumulative purpose of these reports is to assess the ongoing performance of VOA-MN authorized schools regarding academic success, financial sustainability, and organizational effectiveness.

The combination of school performance based on the three VOA-MN Annual School Performance Reports, annual Formal Site Visit Reports, informal site visit observations, authorizer observations of board meetings, and ongoing monitoring of school reporting and compliance provides an accountable oversight mechanism for the authorizer, schools, and other organizations. This collective body of evidence will also form the basis for contract renewal decisions.

RANGE OF POSSIBLE INTERVENTIONS – CONTRACT B. II.

If VOA-MN has a concern about the School, or if the School fails to make adequate progress towards achieving authorizer contractual standards/expectations for school performance, or to comply with Applicable Law, or other requirements of this contract, VOA-MN shall determine the appropriate intervention. The interventions below need not be implemented sequentially, and VOA-MN will implement these as it sees fit and at its sole discretion.

Charter School Contract Renewal and Revocation Process

Renewal Process

Volunteers of America-Minnesota (VOA-MN) views contract renewal as an on-going process that is engaged in by the Board of Directors, school leadership, and the authorizer throughout the entire life of the school's contract with its authorizer. This process culminates in the authorizer publishing an end of contract evaluation report.

End-of-Term Evaluation

VOA-MN publishes an end-of- contract evaluation report based on information, observations and documentation accumulated throughout the length of the contract. The evaluation is an opportunity to determine the extent to which the school is meeting VOA-MN's expectations of a high-quality charter school. More specifically, we assess the school based on the following three central questions:

Is the student learning program a success? (Academic Performance)

Does the school exhibit strong financial health? (Financial Management)

Is the organization effective and well-run? (Board Governance, Management and Operations, Compliance)

We quantify the school's progress in each area (academic performance, governance, financial management / health, and management/operations) using the system described in B.I. (Rating Scale and Weighting of Performance Measures).

VOA-MN will complete a draft of its end-of-term evaluation of the school and submit the draft for review and comment by school leadership and the board. VOA-MN will then make changes, if necessary, and resubmit a final evaluation and decision of renewal to the school's board. Through ongoing monitoring and the renewal evaluation process, VOA-MN determines whether to renew its contract with the charter school and if so, for what length of time. Contracts can be renewed for up to five years.

Termination or Nonrenewal of a contract

Consistent with Minn. Stat. 124E.10, Subd.4(b), VOA-MN may act to terminate or not renew a charter under the following grounds:

- (1) *failure to meet the requirements for pupil performance contained in the contract;*
- (2) *failure to meet generally accepted standards of fiscal management;*
- (3) *violations of law; or*
- (4) *other good cause shown.*

At least 60 days before not renewing or terminating a contract, the authorizer shall notify the board of directors of the charter school of the proposed action in writing. The notice shall state the grounds for the proposed action in reasonable detail and that the charter school's board of directors may request in writing an informal hearing before the authorizer within 15 business days of receiving notice of nonrenewal or termination of the contract. Failure by the board of directors to make a written request for a hearing within the 15-business-day period shall be treated as acquiescence to the proposed action. Upon receiving a timely written request for a hearing, the authorizer shall give ten business days' notice to the charter school's board of directors of the hearing date. The authorizer shall conduct an informal hearing before taking final action. The authorizer shall take final action to renew or not renew a contract no later than 20 business days before the proposed date for terminating the contract or the end date of the contract.

Special Education Services

The school will comply with Minnesota Statutes Chapters 125A and 124E, all applicable rules implemented pursuant to these chapters, and all Federal and State law relating to the education of students with disabilities. Consistent with the provisions of Minnesota Statutes § 124E.21, the financial parameters within which the School will operate to provide special education instruction and related services to students with disabilities will be based on the individual needs of the student, as defined by the student's evaluation and by the instruction and related services specified in the student's Individual Education Plan ("IEP"). The School will deliver services in accordance with IDEA, board policies, and best practices.

The School will provide special education services in compliance with all state and federal guidelines. The teaching staff will provide strategies and instructional techniques that support the learning needs of each learner. The School will continue to contract with a Special Education Director for oversight and assistance maintaining a compliant system that meets the needs of the student population.

The School will plan for child-find activities, initial assessments, reassessments, IEP planning and service delivery as dictated by special education laws. The School will use a combination of employment and contracted services to meet the needs of identified special education students.

Responsibilities of the Board:

Monitor school management's oversight of special education faculty and contractors.

Monitor school management's oversight of required special education program and financial reporting to the state.

Collaboratively with school management, ensure that the school facility is ADA compliant and supports the continuum of special education services for students with disabilities. A charter school may not deny persons with disabilities, including parents and students, the benefits of programs and activities offered at its school because of inaccessible facilities.

Responsibilities of the School Management:

Monitor school compliance with the board-approved Total Special Education Services Plan (TSES). Every Minnesota school district, including charter schools that are districts, is required to have a Total Special Education System (TSES).

Monitor and supervise special education faculty and contractors.

Provide oversight of the school budget related to special education revenue and expenditures.

Supervise special education faculty to ensure that each student with an IEP is receiving all special education supports identified in the student's IEP.

Arrange appropriate and ongoing staff development regarding the delivery of special education and related services.

As a result of this expectation, the Authorizer will:

Annually review student school application forms, policies and procedures for compliance with the Individual with Disabilities Education Act (IDEA) and Section 504 of the Americans with Disabilities Act.

Regularly monitor school compliance with the board-approved Total Special Education Services Plan (TSES). Every Minnesota school district, including charter schools that are districts, are required to have a Total Special Education System (TSES).

Regularly monitor compliance with state reporting requirements as required by Minnesota Statute § 125B.07, Subd. 6 “Data Acquisition Calendar.”

At least annually interview the school Special Education Director and staff to monitor program accountability and compliance.

During site visits, monitor ADA compliance and whether or not facilities support the continuum of special education services for students with disabilities. A charter school may not deny persons with disabilities, including parents and students, the benefits of programs and activities offered at its school because of inaccessible facilities.

Monitor school compliance with state and federal special education educator licensing requirements and reporting.
