Members of the Board of Directors
Bluffview Montessori School
Winona, Minnesota

This Executive Audit Summary and Management Report presents information which we believe is important to you as members of the board of directors. We encourage you to review the sections of this report, the audited financial statements, and the auditors' reports.

We would be pleased to furnish additional information with respect to these suggestions and discuss this memorandum with you at your convenience. We wish to express our appreciation to Bluffview Montessori School (the School) for the courtesies, cooperation, and assistance extended to us during the course of our work.

**EXECUTIVE AUDIT SUMMARY (EAS) FOR
BLUFFVIEW MONTESSORI SCHOOL
YEAR ENDED JUNE 30, 2024**

We prepared this Executive Audit Summary and Management Report in conjunction with our audit of the School's financial records for the year ended June 30, 2024. We appreciated the time that staff took to work with us to complete the engagement.

Audit Opinion – The financial statements are fairly stated. We issued what is known as a “clean” audit report.

Yellow Book Opinion – No compliance issues were noted in our review of laws, regulations, contracts, and grants that could have significant financial implications to the School.

Internal Controls – There were no material weaknesses noted in the current year related to internal controls.

Legal Compliance – No Minnesota legal compliance findings were noted.

FORMAL REQUIRED COMMUNICATIONS

Board of Directors
Bluffview Montessori School
Winona, Minnesota

We have audited the financial statements of the governmental activities and each major fund of Bluffview Montessori School (the School) as of and for the year ended June 30, 2024, and have issued our report thereon dated November 11, 2024. We have previously communicated to you information about our responsibilities under auditing standards generally accepted in the United States of America and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit in our Statement of Work dated July 8, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant audit findings or issues

Qualitative aspects of accounting practices

Accounting policies

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the School are described in Note 1 to the financial statements.

No new accounting policies were adopted and the application of existing policies was not changed during 2024.

We noted no transactions entered into by the School during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The most sensitive estimates affecting the financial statements were:

- Due from Minnesota Department of Education
- Due from federal through the Minnesota Department of Education
- Estimated useful lives of depreciable capital assets
- Estimated proportionate share of PERA's and TRA's net pension liability
- Compensated absences payable

Management's estimate of the due from Minnesota Department of Education is based on amounts anticipated to be received from the state for various aid entitlements for fiscal 2024. The most significant of these is the aid portion of general education revenue. General education revenue and certain other revenues are computed by applying an allowance per student to the number of students served by the school. Student attendance is accumulated in a statewide database, Minnesota Automated Reporting Student System (MARSS). Because of the complexity of student accounting and because of certain enrollment options, student information is input by other school districts and the MARSS data for fiscal year 2024 is not finalized until well into the next fiscal year. Management expects any differences between estimated and actual data will be insignificant.

Management's estimate of due from federal through the Minnesota Department of Education is based on amounts anticipated to be received through the state for various federal aid entitlements for fiscal 2024. Many federal entitlements require that supporting financial reporting information be provided both in the Uniform Financial Accounting and Reporting Standards (UFARS) accounting system and also the SERVVS reporting system. To the extent that these two separate systems are not in agreement and reported in a timely manner, the estimated aid entitlement may be adversely affected. Management expects any differences between estimated and actual data will be insignificant.

Management's estimate of the useful lives for depreciable capital assets is based on guidance recommended by the Minnesota Department of Education and other sources. The useful life of a depreciable capital asset determines the amount of depreciation that will be recorded in any given reporting period as well as the amount of accumulated depreciation that is reported at the end of a reporting period.

Management's estimate of the School's proportionate share of PERA's and TRA's Net Pension Liability is based on guidance from GASB Statement No. 68 and each plan's respective allocation tables. Each plan's allocation tables allocate a portion of the plan's net pension liability based on the School's prior fiscal year contributions as a percentage of the total contributions received for the related year by the plan.

Management's estimate of compensated absences payable is based on certain assumptions made by the District as required by GASB No. 16. A liability has been recorded in the long-term liabilities for accumulated sick leave convertible to early retirement pay for which it is probable that the employees will be compensated. The "vesting method" used by the District to calculate this liability is based on assumptions involving the probability of the employees becoming eligible to receive the benefits (vesting), and the potential use of the accumulated sick leave prior to termination.

We reviewed and tested management's procedures and underlying supporting documentation in the areas discussed above and evaluated the key factors and assumptions used to develop the estimates noted above in determining that they are reasonable in relation to the financial statements taken as a whole. We concluded that the accounting estimates and management judgments appeared to consider all significant factors and resulted in appropriate accounting recognition.

Financial statement disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There were no particularly sensitive financial statement disclosures.

The financial statement disclosures are neutral, consistent and clear.

Significant unusual transactions

We identified no significant unusual transactions.

Difficulties encountered in performing the audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Uncorrected misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management did not identify and we did not notify them of any uncorrected financial statement misstatements.

Corrected misstatements

Management did not identify and we did not notify them of any financial statement misstatements detected as a result of audit procedures.

Disagreements with management

For purposes of this communication, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. No such disagreements arose during our audit.

Management representations

We have requested certain representations from management that are included in the management representation letter dated November 11, 2024.

Management consultations with other independent accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the School's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Significant issues discussed with management prior to engagement

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to engagement as the School's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our engagement.

Required Supplementary Information

With respect to the required supplementary information (RSI) accompanying the financial statements, we made certain inquiries of management about the methods of preparing the RSI, including whether the RSI has been measured and presented in accordance with prescribed guidelines, whether the methods of measurement and preparation have been changed from the prior period and the reasons for any such changes, and whether there were any significant assumptions or interpretations underlying the measurement or presentation of the RSI. We compared the RSI for consistency with management's responses to the foregoing inquiries, the basic financial statements, and other knowledge obtained during the audit of the basic financial statements. Because these limited procedures do not provide sufficient evidence, we did not express an opinion or provide any assurance on the RSI.

Supplementary information in relation to the financial statements as a whole

With respect to the Uniform Financial Accounting and Reporting Standards (UFARS) table (collectively, the supplementary information) accompanying the financial statements, on which we were engaged to report in relation to the financial statements as a whole, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period or the reasons for such changes, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves. We have issued our report thereon dated November 11, 2024.

Other information included in annual reports

Other information (financial or nonfinancial information other than the financial statements and our auditors' report thereon) is being included in your annual report and is comprised of the introductory section. Our responsibility for other information included in your annual report does not extend beyond the financial information identified in our opinion on the financial statements. We have no responsibility for determining whether such other information is properly stated and do not have an obligation to perform any procedures to corroborate other information contained in your annual report. We are required by professional standards to read the other information included in your annual report and consider whether a material inconsistency exists between the other information and the financial statements because the credibility of the financial statements and our auditors' report thereon may be undermined by material inconsistencies between the audited financial statements and other information. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report. Our auditors' report on the financial statements includes a separate section, "Other Information," which states we do not express an opinion or any form of assurance on the other information included in the annual report. We did not identify any material inconsistencies between the other information and the audited financial statements.
